starlynr® journey.

starlynr® is an EU-based health-tech dental brand. Supported by leading pioneers and highly experienced orthodontists from Europe, US and MEA to come up with the all-star smile!

The starlynr® difference.

1

Robust planning software

starlynr® orthodontics system creates a fully customized and predictable treatment plan using the most reliable AI-driven and trusted software. We seek to deliver shorter treatment time for maximum patient satisfaction.

2

Precise fabrication

starlynr® end-to-end 3D technology delivers polished aligners with variable trimlines for optimal tooth movement and maximum patient comfort. starlynr® laboratories used in-house 3D printing technologies with a capacity of over 1 million aligners per year.

3

Stronger plastic

Engineered using Essix® ACE plastic giving 54% more force to hold shape for up to 14 days and delivering optimal tooth movement.
